RE: DA2021/2083 - 5 Forest Road WARRIEWOOD NSW 2102

Living on Angophora Circuit and knowing how congested the area is during school times, and how little parking is available I am concerned that an increase in enrolment numbers will only exacerbate the issue. There is one one hour parking space which is often occupied all day by a car with P plates, it is very unusual for there to be any free car parks available for use by visitors or delivery or tradesmen. The next parking bay along has a four hour time limit and is also generally filled by school students cars. Maybe thought could be given to resident only spaces/more short timed parking/ more enforcement of parking rules as well as the possibility of one direction traffic around Angophora Circuit which would help traffic flow when both sides of the street are parked out and two cars cannot pass.
