

Mr Ray Brownlee,
Chief Executive Officer,
Northern Beaches Council.
16 July, 2020.

Dear Mr Brownlee,

I apologise for bothering you with this simple matter in your busy executive role. But I have failed three times in trying to lodge a computer objection to an application by Optus to build a phone tower in Fisher Park, North Curl Curl.

I have done my best to complete Council's submission form, but each time it comes back to me as invalid. Hence my approach to you in the hope that it may be considered by the appropriate assessing officer, even though the submission fault is almost certainly mine.

The development reference is DA2020/0661. As a long-time resident of North Curl Curl, I would like to submit this objection. As an old newspaperman and author, I am interested in our community affairs.

Incidentally, Cr Pat Daley would remember me from the days we contacted each other regularly when he was public relations officer for the NSW Police Dpt.

Once again, apologies for my unusual approach. I enclose a copy of one of my failed submissions, which contains the submission details and my required personal information.

Yours sincerely,

A handwritten signature in blue ink that reads "Kevin Perkins".

Kevin Perkins.

(99 Headland Road, North Curl Curl; Mob 0416 093 437).

Your Comments: To the Assessing Officer

I wish to object to this Optus application. The intended site for the large mobile tower is on the Abbott Road Sports Fields north of Curl Curl Lagoon. Indeed, it is adjacent to the centralised netball fields for the Northern Beaches. People love this grassy free area to walk, play, exercise and generally relax. A phone tower would spoil the lovely environment and lead to other developments - destroying the natural beauty. Also, it would blight the city skyline view for most householders on Headland Road. Please, do not destroy one of the best sites on the Northern Beaches. Thank you.
