**RE: DA2022/0507 - 27 Wood Street MANLY NSW 2095**

We are residents of the adjoining property to 27 Wood Street, Manly who have currently lodged a DA. After viewing the plans of the DA we have several concerns. We are preparing a submission and are seeking professional advice. We also have noticed that the description of the proposed DA has not been placed at the front of the property which would give other residents of the street the opportunity to also view the DA. We feel that until the paperwork has been placed on the front of the property (as is required by Council) the commencement date of the DA should be amended.
