Hi council .

Referring to modification for the 2019/0547 application .

As a local resident frequenting this amazing market facility .

I wld please request you allow the market and store holders to open up an hour earlier so the locals can get there organic produce early Sunday morning .

The short reading period just isn't enough time for this market .

Most markets start at 7.30-1.30/2pm

Please consider this for our amenity and community .

Regards

Resident rate payer .
