RE: DA2024/1216 - Gourlay Avenue BALGOWLAH NSW 2093

I note that the revised DA still seeks to create a deeper navigation channel for larger boats despite the fact that the revised DA no longer seeks permission for access to larger boats. If the access for larger boats has been withdrawn, why then is there a requirement to still create a deeper navigation channel. I watch the boat movement from the current marina everyday and it seems to me that all of the current fleet of boats using this marina have no trouble in entering or leaving the marina or surrounding area.

Further dredging will not only destroy the already endangered Posidonia seagrass but will also have a detrimental effect on the natural sea life habitats and eco systems.

Further dredging is very difficult to justify and should NOT be allowed.

Thank you for considering my concerns.
