**RE: DA2020/1063 - 2 / 0 Bennett Street CURL CURL NSW 2096**

This is an outrage! This lighting should not go ahead!

I am massively disappointed to see there have not been the proper assessments done for light and noise pollution, let alone traffic and parking assessments! The local residents have a right to have a say and it looks very clear from the submissions that NONE are in favour!

I would be bitterly upset if this was happening on my doorstep. Instead it is affecting a lovely residential area 'down the road'. What is being done to look after the endangered wildlife? With bright lighting all evening it will destroy the peace and will disrupt animals from nesting and their local habitat.

Very poor form Northern Beaches Council.
