**Subject:** Att: Catriona Shirley re DA2019/1069 For 205 Riverview road Avalon .

Good morning

Our residence is at 192 Riverview road which is situated in a north east position on the other side of the road to the 205 residence . We have recently noticed height poles installed on this property which indicate that from our residence we will unfortunately lose water views to the southwest which also includes Scotland Island area .

We would like to suggest that the owners of no 205 consider the loss of water views to there immediate neighbours, and that by increasing the height is not necessary to improve there dwelling .

Yours faithfully  
Maurice Drenth
