RE: REV2022/0024 - 394 Barrenjoey Road NEWPORT NSW 2106

The Newport club has made a well thought-out and comprehensive submission. As a club President in the Sydney northern beaches branch I understand the the challenges of balancing the community needs and the environment but also understand the essential service provided by all surf clubs.

It is essential that the club is able to operate out of a suitable environment in order to provide the service to the local community and to all visitors to the area that is expected of them. Individual opinions and bias from minority groups should not influence such an important decision. This development needs to go forward to maintain the level of service provided. There is no selfish gain for the club, it consists of volunteers giving their time to ensure a safe environment for the community and just trying to create a suitable area in which to do this in. Please reconsider this submission and find a way for it to progress
