**RE: DA2021/1069 - 172 A Hudson Parade CLAREVILLE NSW 2107**

I would like to lodge a submission concerning the protection of bushland and spotted gums in this area. This area is an Endangered Spotted Gum community and I am concerned that the proposed Sea Wall could damage the mature spotted gums, some of which are quite close to the existing small sea wall. There is also a small area of restored Endangered Spotted Gum Community bushland at the northern end of the proposed works. As we are losing many of the mature Spotted Gums in this area, I am extremely concerned about their protection.
