RE: DA2020/0393 - 28 Lockwood Avenue BELROSE NSW 2085

I write regards the proposed development on the site of the old Belrose library. The proposal poses a significant increase in both traffic along an overly congested Glen St as well as an overdevelopment of the "village" atmosphere which was initially planed for the area. The number of home units planned would simply result in shoebox size apartments which are not what is sort in the area.
