RE: DA2019/0108 - 11 - 13 Cook Street FORESTVILLE NSW 2087

Hi There,

In addition to the submission I have already submitted:

I'd also like to point out, that there is no other buildings in the vicinity where the buildings are higher than 2 storeys. At 3 storeys, the building would stick out in the current environment. We propose a 2 storey building in place of 3 storeys to ensure the building is compatible with the height and scale of surrounding buildings.

In addition to my previous submission on the signage facing my backyard, if there will be any lighting associated to the building, this will need to be addressed, as this will have an impact on both my residence and nearby residents..

Lastly, what will be the plans of the Mobile tower, will this be removed off site altogether?

Thanks
Edward & Natalie.
