

## Natural Environment Referral Response - Coastal

<b>Application Number:</b>	DA2020/1453
<b>Date:</b>	24/11/2020
<b>Responsible Officer</b>	Lashta Haidari
<b>Land to be developed (Address):</b>	Lot 1 DP 881326 , 4 Collaroy Street COLLAROY NSW 2097 Lot CP SP 5367 , 1 Alexander Street COLLAROY NSW 2097

### Reasons for referral

This application seeks consent for land located within the Coastal Zone.

And as such, Council's Natural Environment Unit officers are required to consider the likely impacts on drainage regimes.

### Officer comments

The application has been assessed in consideration of the *Coastal Management Act 2016*, State Environmental Planning Policy (Coastal Management) 2018 and has also been assessed against requirements of the Warringah LEP 2011 and Warringah DCP 2011.

#### Coastal Management Act 2016

The subject site has been identified as being within the coastal zone and therefore *Coastal Management Act 2016* is applicable to the proposed development.

The proposed development is in line with the objects, as set out under Clause 3 of the *Coastal Management Act 2016*.

#### State Environmental Planning Policy (Coastal Management) 2018

The subject land has been included on the 'Coastal Use Area' map under the State Environmental Planning Policy (Coastal Management) 2018 (CM SEPP). Hence, Clauses 14 and 15 of the CM SEPP apply for this DA.

#### Comment:

On internal assessment and as also assessed in the submitted Statement of Environmental Effects (SEE) report prepared by Boston Blyth Fleming Pty. Ltd. dated November 2020, the DA satisfies requirements under clauses 14 and 15 of the CM SEPP.

As such, it is considered that the application does comply with the requirements of the State Environmental Planning Policy (Coastal Management) 2018.

### Warringah LEP 2011 and Warringah DCP 2011

No other coastal related issues identified.

As such, it is considered that the application does comply with the requirements of the coastal relevant clauses of the Warringah LEP 2011 and Warringah DCP 2011.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

**Recommended Natural Environment Conditions:**

**CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT**

**Installation and Maintenance of Sediment and Erosion Control**

Sediment and erosion controls must be installed in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004). Techniques used for erosion and sediment control on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

Reason: To protect the surrounding environment from the effects of sedimentation and erosion from the site
