RE: DA2021/1805 - 4 Alexander Street COLLAROY NSW 2097

The Council,

We are lucky to have developments of this quality in our Council.

This building makes the suburb look better through innovative landscaping, is much lower in height as compared to the neighbouring apartment block and serves the over 55's community.

Whilst some people think that the elderly are a drain on society, I believe that they will add to the community feel to the area.

It should be approved by Council.
