**Subject:** Additional Submission- Video of daily congested traffic.

DA2019/1260

Please find attached a video pertaining to my recent submission, clearly demonstrating the daily traffic gridlock heading south along Barrenjoey Road, approaching North Avalon Road, and beyond, of kilometres of bumper to bumper

traffic.

I will take more photos and another video of tomorrow's traffic and send them in just to demonstrate that this is not a one off.

These will again illustrate this same severe traffic problem that the locals encounter before and after 9am every single morning!
