RE: DA2020/0393 - 28 Lockwood Avenue BELROSE NSW 2085

I still think the building is far to high. There are still too many units for our area. Although there is parking within the building, there would not be enough to accommodate the residence guests & customers for the shops. Therefore the excess parking will be in our streets & Glenrose Village shopping centre. Our local streets will have even more traffic thus making it dangerous for the children walking to school. Also I do not think it is fair for people in Killarney Heights & Forestville to have a say, as they live nowhere near this development. kind regards, Suzanne
