RE: DA2024/1216 - Gourlay Avenue BALGOWLAH NSW 2093

Hi

My concern is the ability of the larger vessels to maneuver in such a confined space and their effect on the sea grass beds . These vessels will need to use powerful bow and stern thrusters to turn and the wash from those will damage the sea grass beds . North Harbour is used by a lot of people for recreational fishing in smaller boats and kayaks these vessels will be a risk of capsizing in the wash of 30 metre boats .

I run a fishing charter business and have fished these areas for the last 25 years so have plenty of knowledge of the environs

Regards
Stuart
