RE: DA2019/1480 - 242 Warringah Road BEACON HILL NSW 2100

Since sending my earlier submission I have spoke to Lashta who has kindly answered some of my questions. Now that we're aware the boarding house will be a subsidised style of accommodation for low income people, we have strong objections to this DA as there is another similar type of housing complex just across the road on Ellis Rd. Given the nature of issues faced by disadvantaged people we frequently see police and other emergency people responding to incidents in that complex. Building another 12 room boarding house that can house 24 adults has the potential to exacerbate security issues we already live with. We can not understand why you would approve two such complex in such close proximity to each other.

Other raised in my previous still stand. Thank you
