Hi there

I have been sent the notice of proposed development for  
Lot 52 DP 1237461 80-82 Mona Vale Rd Mona Vale

This is in relation to the outdoor dining

Issue: the issue is the noise. The RSL over the last 2 years has been promoting young drinking with multi beer containers and large cocktail tubs instead of selling glasses. Families have been kicked out and the Brasserie which was a family restaurant is closed. The young people have been marketed to and just last night with the opening after lockdown the yahoos were so loud constantly that our children had trouble sleeping.

There is enough space in the RSL for indoor dining considering the Brasserie has not been used over the last few months. If this is unavailable, outdoor dining would still create far too much noise for the surrounding houses and families. They could use the auditorium for more dining space and the space available inside the premises

We oppose the use of outdoor dining and therefore drinking so close to so many family homes

Warmly  
Amanda Bracks Taylor
