RE: DA2021/2567 - 60 Federal Parade BROOKVALE NSW 2100

The existing road infrastructure is already under immense pressure with the current size of the school. It is common for roads around the school to be blocked for 15 - 20 minutes each school day, and No Parking zones parked in.

Increasing the school size by 33.33% will further exacerbate existing problems unless changes are made to parking, road width etc. At the moment it is very common to see streets filled with large boats and caravans. More cars will make the area even more dangerous for pedestrians.
