**Subject:** Application NoDA2021/1151 lot25 DP28354 8 Darius Ave NORTH NARRABEEN.

Alteration and addition to a dwelling house including a swimming pool and carport.

I would like to comment on the shade profile of the above DA.

When I first discussed the alteration with my neighbour I estimated that the modification would have minimal effect on our property. However after seeing the shade profile on the council website I have become a little concerned.

If I am interpreting the shade profile correctly it appears that all or part of our back yard will be in the shade zone for most of the day.

I am a little embarrassed about complaining as I told them before seeing the shade profile that I had no concerns . They are such a nice family and I feel bad about causing them any grief.

Yours faithfully
