Subject: Attention Renee Ezzy- Additional Submission.

Additional comments for my previous submission for the proposed development at 27-29 North Avalon Rd, Avalon.

DA2019/1260

Dear Renee,

Every weekday morning local residents encounter heavy traffic right along Barrenjoey Road, and at the intersection of North Avalon Road and into Catalina Crescent.

Video footage in the drop box below demonstrates this traffic on two separate occasions, both after 9am.

This congested traffic occurs on a regular basis most afternoons as well, before and after 3pm, banking all the way up North Avalon Road and Catalina Crescent as parents do the school pick-up from Barrenjoey High School.

Not to mention the beach traffic heading home south along Barrenjoey Road, coming back from Palm Beach on a Saturday or Sunday afternoon. This traffic is usually banked up bumper-to-bumper all the way from the main Avalon

shops, right up past the North Avalon Road intersection up to Careel Bay.
