Petition against overdevelopment of North Avalon

A development application for seniors housing comprising 10 units, 15 car spaces with no underground parking provided, and the destruction of more than 50 trees at 27-29 North Avalon Road is currently being considered by Northern Beaches Council. The bulk and scale of the development is not in character with the local neighbourhood, does not meet the objectives of the SEPP 55 housing policy or the Avalon Beach Development Control Plan, and makes no attempt to integrate existing trees into the design. Extra traffic from the development will add to the congestion on North Avalon Road, which is already beyond capacity during the morning peak.

So far almost 40 submissions have been made to the Development Application by local residents through the council website, sending a strong message rejecting the development to council. Submissions close on 11 February meaning there is still time to formally lodge a submission to: <u>council@northernbeaches.nsw.gov.au</u> DA2019/1260.
