RE: Mod2021/0543 - & CLIFFORD AVENUE, FAIRLIGHT NSW 2094

I refer to the plans submitted as part of the Section 455 Modification (Mod2021/0543) to Development Application Consent DA2019/0276.

My review of the architectural plans has identified that the new works detailed on the architectural plans, extends the living and external recreational areas to the south. This extension, particularly the First-Floor balcony space, will have uninterrupted visual access to our balcony and living areas. This defeats the purpose of the privacy screen constructed on the eastern side of our balcony.

I request Council's consideration that privacy screens along the western side of the First Floor balcony are conditional as part of any Section 455 Modification Consent.

Yours Sincerely,

Kerry Head
