S4.55- Design Certification and DA Consistency

23/12/2020

TO: Elizabeth MCCabe  
Senior Project manager  
Construction Assignments

Dear Elizabeth

The Sydney Design Collectives confirms that Section 4.55 is consistent with the Amended Landscape Plans' conditions and design intent. These conditions are described in Condition 17 of the DA Notice of Determination.

The Sydney Design Collective has an ongoing role in this project as the nominated Landscape Architect. It will ensure the requirements are fulfilled and the high-quality landscape, planting and finishes outcome expected from Northern Beaches Council is maintained.

We have high aspirations for this project and will be checking in on the conditions for consistency as the design and documentation develops.

Regards

David Duncan.

Director/ Practitioner. AILA (Registered Landscape Architect)
