To the assessing officer

I am in strong support of the above mentioned submission for the Organic Food Markets! The markets have played an important social role for the community and businesses alike, the fact that it brings organic and fresh produce to a large number of people on the Northern Beaches, many of which are local up and coming Australians launching their products to Australians.

For many the accessibility of the market for those who work during the week as it is held on a weekend, is an additional benefit.

And the role the market plays in activating tourism on the Northern Beaches at the weekend, We are proud supporters of this market as both consumers and stall holders and fact that the market was the pioneer of food markets in Sydney, Makes it even more important to uphold this outstanding community event.

why the market is important to you and yours.
