**Subject:** PLEASE PASS URGENTLY TO DA2022/809 OBJECTION CLOSING

**TODAY 21ST JUNE 2022 - 4 HARVEY ROAD INGLESIDE 2102**

**I am writing on behalf of our RESCUE SHELTER DOGGIE RESCUE at 2 McCowan Road, INGLESIDE 2101. (the OLD PITTWATER DOG POUND at the Bottom of TUMBURRA STREET.)**

**We only learnt today on the last day that there is an application for another landscaping/materials supply yard on 4 HARVEY Road, Ingleside. This road runs off Tumburra Street. DA2022/809.**

**We have dog walkers every day of the week walking along Tumburra Street all the way to Mona Vale Road and back with dogs. Some days it is up to 40 people some with kids. These big trucks make it EXTREMELY DANGEROUS for our dog walkers, children and dog to walk along. They go so fast and there are many blind corner when you dont know what is coming. It is a very narrow road, hardly enough room for two cars to pass and NO FOOTPATH.**

**We already have huge trucks now carrying tons and tons of gravel and stone from a quarry and a tree cutting company at the top of the street at McCowan which becomes Tumburra further up towards Mona Vale Road.**

**In case the council hasn't noticed the trucks are constanting ripping up all pot hole repairs that are made to the road. It only takes 4 weeks before all the holes start appearing again. At present there are 29 pot holes on the road from Mona Vale Road junction /Tumburra Street all the way down to McCowan Road where the shelter is. We are constantly sending emails telling the council about the pot holes. We have people riding motor bikes down to the shelter and the size of the pot holes are very deep and would send a rider off his bike.**

**Please take into consideration our objection to another business with huge trucks day and night along this small narrow road.**

**Gear Rose**

**Senior Customer Service Administrator on behalf of Doggie Rescue**
