Subject: D.A. 2021 / 1612 SUPPORT NEW SEA WALL CONSTRUCTION

To Whom it may Concern,

We own a small unit next to the South Narrabeen Surf Club and we have 2 little children. We love Narrabeen and everything it has to offer including its wonderful beach. We also understand there's a shift in the climate and we have seen some damaging storms splash their way onto our balcony. It's terrifying.

We support this DA because it doesn't just protect our homes, it protects more than just our home, the arterial road and the infrastructure behind it. The ocean won't stop and doesn't discriminate, ignoring this current situation will not mean it will go away. We need to do something about it now.

The wall once finished will be hardly seen, some say you will see more after a storm but what's better seeing a little more wall or seeing gardens, fences, trees, toys and homes washed into the ocean....

Our block of properties running from Clarke Street to Wetherill Street are all now requesting that Council approve the construction of a new Sea Wall (D.A. 2021 / 1612)

- Global warming has changed our local environment and all Australians need to face that simple fact and be proactive.
- The storms are becoming more frequent and causing more damage.
- We want to feel safe and protected where we live.
- It's sad to see misinformation about where and what the wall will do and who is paying the costs.
- Our goals are the same, to protect our homes, Narrabeen and its beaches.

Council's Approval of this D.A. will be for the benefit of future generations of Northern Beaches residents .

Warm regards,

Sabr Family
