RE: DA2022/1586 - 9 Kananook Avenue BAYVIEW NSW 2104

To whom it may concern,

I would like to have confirmation of the storm water plan for the development. 9 Kananook Avenue backs onto our private driveway and we are having issues with NUISANCE water being diverted onto our driveway causing flooding and erosion. We do not want nor allow storm water or nuisance water to be diverted onto our property/driveway. I note that the plans state that storm water will be connected to existing. However, if existing means our property - we do not accept this. Please provide accurate details. Many thanks,
Vanessa Orr and John Hildebrand
