RE: DA2020/0264 - 57 Myoora Road TERREY HILLS NSW 2084

I would like to object to the current DA2020/0263 and DA 2020/0264
Terrey Hills is a rural community that is trying to maintain it's unique ambience. Light industrial with operating hours of 6am to 7pm does not sit well with the local residential houses. The excessive traffic that this development will create in an already narrow busy street will cause major problems. Terrey Hills is a bottle neck now .We are encouraged to use public transport and it is wonderful to have Forest Coach line supplying such good timetables but already it is hard to park near the bus stop in Myoora Rd. It is nice to see so many school children walking or riding their bikes to the local schools and it worries me that it will become unsafe for the children to continue to do so with the extra traffic that a retail business will create. Do they have sufficient parking off the streets?
Thank you for your time.
