Approval

PROPOSED DEVELOPMENT IN DETAIL

The proposal is for alterations and additions to the existing dwelling.

In detail, this involves:

Submissions Received:

Clause 4.6 Variation:

Recommendation:

- Stormwater management works
- Extension of existing office at lower garage level
- Replacement of front deck with a new deck at ground level

Amended plans were provided for the application which involves a greater front setback to the deck and office (increased from 3.9m-5.7m).

DA2021/1754 Page 1 of 23

ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral
 to relevant internal and external bodies in accordance with the Act, Regulations and relevant
 Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Pittwater 21 Development Control Plan - C1.5 Visual Privacy

Pittwater 21 Development Control Plan - D3.6 Front building line

Pittwater 21 Development Control Plan - D3.7 Side and rear building line

Pittwater 21 Development Control Plan - D3.11 Landscaped Area - Environmentally Sensitive Land

SITE DESCRIPTION

Property Description:	Lot 311 DP 16327 , 29 Daly Street BILGOLA PLATEAU NSW 2107		
Detailed Site Description:	The subject site consists of an allotment located on the north-western side of Daly Street.		
	The site is regular in shape with a frontage of 12.45m along Daly and a depth of 40.23m. The site has a surveyed area of 499.5m ² .		
	The site is located within the E4 Environmental Living zone and accommodates a dwelling house.		
	The site a crossfall of approximately 12 metres from the rear of the property down to the front of the site.		
	Detailed Description of Adjoining/Surrounding Development		
	Adjoining and surrounding development is characterised by residential development.		

DA2021/1754 Page 2 of 23

Мар:

SITE HISTORY

A search of Council's records has revealed that there are no recent or relevant applications for this site.

The land has been used for residential purposes for an extended period of time.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for Consideration	Comments
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on "Environmental Planning Instruments" in this report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Pittwater Development Control Plan applies to this proposal.
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000	<u>Division 8A</u> of the EP&A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of

DA2021/1754 Page 3 of 23

Section 4.15 Matters for Consideration	Comments	
(EP&A Regulation 2000)	consent.	
	Clause 92 of the EP&A Regulation 2000 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition of consent.	
	Clauses 93 and/or 94 of the EP&A Regulation 2000 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This clause is not relevant to this application.	
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.	
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment	(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Pittwater Development Control Plan section in this report.	
and social and economic impacts in the locality	(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.	
	(iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.	
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.	
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on "Notification & Submissions Received" in this report.	
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.	

EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited from 29/10/2021 to 12/11/2021 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and

DA2021/1754 Page 4 of 23

Assessment Regulation 2000 and the Community Participation Plan.

As a result of the public exhibition of the application Council received no submissions.

REFERRALS

Internal Referral Body	Comments			
Environmental Health (Solid Fuel/Oil Heater)	General Comments			
,	Fireplace and flue to be installed. Given the detail in the plans, flue exit is approximately 5 metres horizontally from the roof line and will be more than 6 metres from any other obstruction. This demonstrates compliance with distances in AS2918. Furthermore, being located in a wind-exposed area with few obstructions, we expect that any smoke will dissipate well and be less likely to cause nuisance to surrounding residents. No objections, please see the below standard conditions for installation and operation of a solid fuel heater.			
Landscape Officer	This application is for the alterations and additions of an existing residential dwelling. Alterations include the minor demolition of site structures in order to facilitate additions which are inclusive of a new office, retaining wall and access stairs on the garage floor level, with a new covered deck above on the ground floor.			
	Councils Landscape Referral section has considered the application against the Pittwater Local Environmental Plan, and the following Pittwater 21 DCP controls:			
	 B4.22 Preservation of Trees and Bushland Vegetation C1.1 Landscaping D3.11 Landscaped Area - Environmentally Sensitive Land 			
	The Statement of Environmental Effects provided with the application notes that no significant vegetation is required to be removed as a result of proposed works. This statement is partially supported by the Architectural Plans as no significant trees are proposed to be removed.			
	Upon further review of the Architectural Plans and Site Survey provided, it is noted that some vegetation is required to be removed at the front of the site in order to accommodate the new study area. This vegetation however appears to be well below 5m in height, and hence is considered exempt, and may be removed without Councils approval. It is noted there is a number of existing trees, albeit relatively small, and vegetation located within the front setback adjacent to proposed works. This existing vegetation currently satisfies controls C1.1 and D3.11 as it not only screens, but also softens the bulk and scale of the built form, and for this reason is required to be retained and protected. The retention of this vegetation is also vital to satisfy control B4.22, as key objectives of this control include "to protect and enhance the urban forest of the Northern Beaches", as well as "to protect and enhance the scenic value and character that trees and/or bushland vegetation provide".			

DA2021/1754 Page 5 of 23

Internal Referral Body	Comments				
	The landscape component of the proposal is therefore supported subject to the protection of existing trees and vegetation.				
NECC (Bushland and Biodiversity)	Council's Natural Environment Unit - Biodiversity referral team have reviewed the application for consistency against the relevant environmental legislation and controls, including:				
	Biodiversity Conservation Act 2016 (BC Act) Pittwater Local Environmental Plan (PLEP)				
	7.6 Biodiversity Protection				
	Pittwater Development Control Plan (PDCP)				
	B4.6 Wildlife Corridors				
	The application does not require the removal of prescribed trees or vegetation, nor is it likely to impact on nearby biodiversity values. Subject to conditions the Bushland and Biodiversity referral team find the application to be consistent against relevant environmental controls.				
NECC (Development Engineering)	No objections to approval subject to conditions as recommended.				

External Referral Body	Comments
	The proposal was referred to Ausgrid. No response/decision has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended.

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP 55 - Remediation of Land

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated.

DA2021/1754 Page 6 of 23

Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

SEPP (Building Sustainability Index: BASIX) 2004

A BASIX certificate has been submitted with the application (see Certificate No. A429479).

A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

SEPP (Infrastructure) 2007

Ausgrid

Clause 45 of the SEPP requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

Comment:

The proposal was referred to Ausgrid. No response/decision has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended.

Pittwater Local Environmental Plan 2014

D3.12 Fences - General	Yes	Yes
D3.14 Construction, Retaining walls, terracing and undercroft areas	Yes	Yes

Detailed Assessment

C1.5 Visual Privacy

The proposed new deck is set 1.2m from the boundary and adjoins neighbouring living spaces. As such, a condition is imposed to reduce opportunity for overlooking by requiring a 1.6m privacy screen along the extent of the north-eastern elevation of the deck.

D3.6 Front building line

Description of non-compliance

DA2021/1754 Page 9 of 23

The proposal does not comply with the front setback control of 6.5m. In this regard, the proposal involves a front setback of 5.4m.

Merit Consideration

In regard to the consideration for variation, the application is assessed against the outcomes of the clause as follows:

Achieve the desired future character of the Locality.

The proposed development involves a design that achieves the desired future character of the locality by providing a low density style, two storey dwelling that is within a landscaped setting. This is contributed to by the articulation of the dwelling and the landscaping which surrounds the site including the landscaped road reserve.

Equitable preservation of views and vistas to and/or from public/private places.

The proposed front extension is generally open in and maintains a compliant building height. This design ensures that there is not an unreasonable impact upon views and vistas to or from public or private places.

The amenity of residential development adjoining a main road is maintained.

The proposed extension is separated sufficiently from the road to ensure amenity impact is minimised.

Vegetation is retained and enhanced to visually reduce the built form. (En)

The proposed development includes adequate vegetation within the front setback in order to soften and reduce the visual impact of the proposed alterations and additions to the dwelling.

Vehicle manoeuvring in a forward direction is facilitated. (S)

The proposal maintains the siting of the garage in which there is sufficient opportunity for a vehicle maneuvering.

To enhance the existing streetscapes and promote a scale and density that is in keeping with the height of the natural environment.

The proposed development is consistent with existing development in the locality and in the immediate streetscape and is screened by vegetation to the front of the site. This includes a setback to the deck which is no greater than the neighbouring dwelling to the north. This results in an adequate presentation of height and bulk within the natural environment.

To encourage attractive street frontages and improve pedestrian amenity.

As above, the proposed development includes adequate vegetation within the front setback in order to reduce the visual impact of the proposed first floor addition and alterations to the garage to maintain an attractive street frontage. Pedestrian amenity is sufficiently retained as the existing driveway and crossover is to remain.

To ensure new development responds to, reinforces and sensitively relates to the spatial characteristics of the existing urban environment.

DA2021/1754 Page 10 of 23

The proposal does not involve any significant earthworks and involves a dwelling on land which provides sufficient physical separation to other land uses. As such, the proposed dwelling appropriately responds to, reinforces and sensitively relates to the spatial characteristics of the existing urban environment.

The proposal is consistent with the outcomes of the clause.

D3.7 Side and rear building line

Description of non-compliance

The proposal does not comply with the side setback control of 2.5m and 1m. In this regard, the proposal involves a setback of 1.2m and 1m.

Merit Consideration

The following forms a merit assessment against the outcomes of the control with regards to the side setbacks:

To achieve the desired future character of the Locality.

The proposed development involves a design that achieves the desired future character of the locality by providing a low density style, two storey dwelling that is within a landscaped setting. This is contributed to by the articulation of the dwelling and the landscaping which surrounds the site including the landscaped road reserve.

The bulk and scale of the built form is minimised.

The side setback breaches are a result of a ground floor deck and extension. The deck is well seperated from neighbouring living spaces, and bulk and scale of the built form of the new structures is minimal and will not detract from the character of the area.

Equitable preservation of views and vistas to and/or from public/private places.

The proposal maintains a compliant building height, and the proposed deck is open in nature. As such, equitable preservation of views is provided.

To encourage view sharing through complimentary siting of buildings, responsive design and well-positioned landscaping.

As above, the non-compliances will not impact on existing views. The deck and front extension are sited and designed to ensure that each are located close to ground level to maximise opportunity for view sharing.

To ensure a reasonable level of privacy, amenity and solar access is provided within the development site and maintained to residential properties.

The proposed deck area is sufficiently seperated from neighbouring living spaces and aligns with the neighbouring deck. Further, there is no introduction of bulk that could cause an unreasonable amenity impact.

Substantial landscaping, a mature tree canopy and an attractive streetscape.

DA2021/1754 Page 11 of 23

Existing landscaping, in addition to vegetation required to be protected by condition maintains sufficient opportunity to soften the built form while also providing for an attractive streetscape.

Vegetation is retained and enhanced to visually reduce the built form.

As noted above, vegetation is being retained and new planting proposed to assist with visually reducing the built form.

To ensure a landscaped buffer between commercial and residential zones is established.

N/A. The site is not located adjacent to a commercial zone.

The proposal is consistent with the outcomes of the clause.

D3.11 Landscaped Area - Environmentally Sensitive Land

Description of non-compliance

The proposal involves a small reduction to the existing Landscaped area from 168sqm (33.6%) to 164sqm (32.8%). This does not comply with the numerical control of 60%.

Merit assessment

An assessment of the proposal against the overarching outcomes of the clause follows:

Achieve the desired future character of the Locality.

The proposed development involves a design that achieves the desired future character of the locality by providing a low density style, two storey dwelling that is within a landscaped setting. This is contributed to by the articulation of the dwelling and the landscaping which surrounds the site including the landscaped road reserve.

The bulk and scale of the built form is minimised.

The bulk and scale of the built form is consistent with the established character of the area being predominately two-storeys in appearance.

A reasonable level of amenity and solar access is provided and maintained.

The reduced landscaped area will not adversely impact upon amenity and solar access being provided to adjoining properties and within the development site.

Vegetation is retained and enhanced to visually reduce the built form.

Vegetation will be retained where possible, while existing landscaping will help enhance the site to help visually reduce the built form, as viewed from the road and adjoining private properties.

Conservation of natural vegetation and biodiversity.

The works will not have an unreasonable impact on natural vegetation or biodiversity, subject to conditions.

Stormwater runoff is reduced, preventing soil erosion and siltation of natural drainage channels.

DA2021/1754 Page 12 of 23

The small reduction in landscaped area will not have an unreasonable impact on stormwater runoff, and the site will continue to be managed via the existing stormwater management arrangement onsite (subject to a further condition recommended by Council's Development Engineer).

To preserve and enhance the rural and bushland character of the area.

The site maintains vegetation and landscaping to surround the site, including in the road reserve. This will maintain the rural and bushland character.

Soft surface is maximised to provide for infiltration of water to the water table, minimise run-off and assist with stormwater management.

The proposal maintains soft surface to surround the dwelling, and maintains a landscaped road reserve. Subject to conditions, this sufficiently assists with Stormwater management.

The proposed landscaped area is considered reasonable and supported on merit.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2021

The proposal is subject to the application of Northern Beaches Section 7.12 Contributions Plan 2021.

A monetary contribution of \$ 650 is required for the provision of new and augmented public infrastructure. The contribution is calculated as 0.5% of the total development cost of \$ 130,000.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Pittwater Local Environment Plan;
- Pittwater Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

DA2021/1754 Page 13 of 23

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Inconsistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2021/1754 for Alterations and additions to a Dwelling House on land at Lot 311 DP 16327, 29 Daly Street, BILGOLA PLATEAU, subject to the conditions printed below:

DEVELOPMENT CONSENT OPERATIONAL CONDITIONS

1. Approved Plans and Supporting Documentation

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

a) Approved Plans

Architectural Plans - Endorsed with Council's stamp		
Drawing No.	Dated	Prepared By
DA4 - Garage Floor Plan	10-12-21	Plan A
DA5 - Ground Floor Plan	10-12-21	Plan A
DA6 - Roof Plan	10-12-21	Plan A
DA7 - Elevations N,S	10-12-21	Plan A
DA8 - Elevations E,W	10-12-21	Plan A
DA9 - Section A-A	10-12-21	Plan A
DA10- Section B-B	10-12-21	Plan A

Engineering Plans			
Drawing No.	Dated	Prepared By	
Sheet 1 - Stormwater management Plan	17 August 2021	Taylor Consulting	

Reports / Documentation – All recommendations and requirements contained within:		
Report No. / Page No. / Section No.	Dated	Prepared By
Geotechnical Investigation	13 September	White geotechnical

DA2021/1754 Page 14 of 23

	2021	Group
BASIX Certificate A429479	27 August 2021	Bodill Ventures Pty Ltd

- b) Any plans and / or documentation submitted to satisfy the Conditions of this consent.
- c) The development is to be undertaken generally in accordance with the following:

Landscape Plans		
Drawing No.	Dated	Prepared By
DA11- Landscaping Plan	10-12-21	Plan A

Waste Management Plan		
Drawing No/Title.	Dated	Prepared By
Waste Management Plan	20.08.21	Matt Power

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

2. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate):
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (i) showing the name, address and telephone number of the Principal Certifying Authority for the work, and
 - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - (i) in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 of that Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and

DA2021/1754 Page 15 of 23

B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
 - (i) protect and support the adjoining premises from possible damage from the excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
 - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
 - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

3. **General Requirements**

(a) Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (c) At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.

DA2021/1754 Page 16 of 23

- (d) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- (g) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (h) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (i) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (j) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (k) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (I) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (m) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (n) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
 - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

DA2021/1754 Page 17 of 23

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992
- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2018
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

4. Policy Controls

Northern Beaches 7.12 Contributions Plan 2021

A monetary contribution of \$650.00 is payable to Northern Beaches Council for the provision of local infrastructure and services pursuant to section 7.12 of the Environmental Planning & Assessment Act 1979 and the Northern Beaches Section 7.12 Contributions Plan 2021. The monetary contribution is based on a development cost of \$130,000.00.

The monetary contribution is to be paid prior to the issue of the first Construction Certificate or Subdivision Certificate whichever occurs first, or prior to the issue of the Subdivision Certificate where no Construction Certificate is required. If the monetary contribution (total or in part) remains unpaid after the financial quarter that the development consent is issued, the amount unpaid (whether it be the full cash contribution or part thereof) will be adjusted on a quarterly basis in accordance with the applicable Consumer Price Index. If this situation applies, the cash contribution payable for this development will be the total unpaid monetary contribution as adjusted.

The proponent shall provide to the Certifying Authority written evidence (receipt/s) from Council that the total monetary contribution has been paid.

The Northern Beaches Section 7.12 Contributions Plan 2021 may be inspected at 725 Pittwater Rd, Dee Why and at Council's Customer Service Centres or alternatively, on Council's website at www.northernbeaches.nsw.gov.au

DA2021/1754 Page 18 of 23

This fee must be paid prior to the issue of the Construction Certificate. Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To provide for contributions in accordance with the Contribution Plan to fund the provision of new or augmented local infrastructure and services.

5. Security Bond

A bond (determined from cost of works) of \$1,500 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

6. Stormwater Disposal

The applicant is to demonstrate how stormwater from the new development within this consent is disposed of to an existing approved system or in accordance with Northern Beaches Council's Water Management for Development Policy. Details by an appropriately qualified and practicing Civil Engineer demonstrating that the existing approved stormwater system can accommodate the additional flows, or compliance with the Council's specification are to be submitted to the Certifying Authority for approval prior to the issue of the Construction Certificate.

Reason: To ensure appropriate provision for disposal and stormwater management arising from development.

7. Geotechnical Report Recommendations have been Incorporated into Designs and Structural Plans

The recommendations of the risk assessment required to manage the hazards as identified in the Geotechnical Report prepared by White Geotechnical Group dated 13/9/2021 are to be incorporated into the construction plans. Prior to issue of the Construction Certificate, Form 2 of the Geotechnical Risk Management Policy for Pittwater (Appendix 5 of P21 DCP) is to be completed and submitted to the Accredited Certifier. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure geotechnical risk is mitigated appropriately.

DA2021/1754 Page 19 of 23

8. No Clearing of Vegetation

Unless otherwise exempt, no vegetation is to be cleared prior to issue of a Construction Certificate.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to issue of Construction Certificate.

Reason: To protect native vegetation.

9. Amendments to the approved plans

The following amendments are to be made to the approved plans:

A privacy screen is to be installed along entire length of the northern edge of the proposed side deck adjacent to the dining room. The screen is to be 1.6m in height (taken from the finished floor level of the deck), fixed and may include obscure glazing or louvres which are angled and spaced sufficiently to avoid overlooking onto the neighbouring property.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of the construction certificate.

Reason: To ensure development minimises unreasonable impacts upon surrounding land.

10. **Boundary Identification Survey**

A boundary identification survey, prepared by a Registered Surveyor, is to be prepared in respect of the subject site.

The plans submitted for the Construction Certificate are to accurately reflect the property boundaries as shown on the boundary identification survey, with setbacks between the property boundaries and the approved works consistent with those nominated on the Approved Plans of this consent.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of any Construction Certificate.

Reason: To ensure all approved works are constructed within the subject site and in a manner anticipated by the development consent.

11. Sydney Water "Tap In"

The approved plans must be submitted to the Sydney Water Tap in service, prior to works commencing, to determine whether the development will affect any Sydney Water assets and/or easements. The appropriately stamped plans must then be submitted to the Certifying Authority demonstrating the works are in compliance with Sydney Water requirements.

Please refer to the website www.sydneywater.com.au for:

- o "Tap in" details see http://www.sydneywater.com.au/tapin
- o Guidelines for Building Over/Adjacent to Sydney Water Assets.

Or telephone 13 000 TAP IN (1300 082 746).

DA2021/1754 Page 20 of 23

Reason: To ensure compliance with the statutory requirements of Sydney Water.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

12. Tree and Vegetation Protection

- a) Existing trees and vegetation shall be retained and protected, including:
- i) all trees and vegetation within the site not approved for removal, excluding exempt trees and vegetation under the relevant planning instruments of legislation,
- ii) all trees and vegetation located on adjoining properties,
- iii) all road reserve trees and vegetation.
- b) Tree protection shall be undertaken as follows:
- i) tree protection shall be in accordance with Australian Standard 4970-2009 Protection of Trees on Development Sites, including the provision of temporary fencing to protect existing trees within 5 metres of development,
- ii) existing ground levels shall be maintained within the tree protection zone of trees to be retained, unless authorised by an Arborist with minimum AQF Level 5 in arboriculture,
- iii) removal of existing tree roots at or >25mm (\emptyset) diameter is not permitted without consultation with an Arborist with minimum AQF Level 5 in arboriculture,
- iv) no excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of trees and other vegetation required to be retained,
- v) structures are to bridge tree roots at or >25mm (\emptyset) diameter unless directed by an Arborist with minimum AQF Level 5 in arboriculture on site,
- vi) excavation for stormwater lines and all other utility services is not permitted within the tree protection zone, without consultation with an Arborist with minimum AQF Level 5 in arboriculture including advice on root protection measures,
- vii) should either or all of v), vi) and vii) occur during site establishment and construction works, an Arborist with minimum AQF Level 5 in arboriculture shall provide recommendations for tree protection measures. Details including photographic evidence of works undertaken shall be submitted by the Arborist to the Certifying Authority,
- viii) any temporary access to, or location of scaffolding within the tree protection zone of a protected tree or any other tree to be retained during the construction works is to be undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of Australian Standard 4970-2009 Protection of Trees on Development Sites,
- ix) the activities listed in section 4.2 of Australian Standard 4970-2009 Protection of Trees on Development Sites shall not occur within the tree protection zone of any tree on the lot or any tree on an adjoining site.
- x) tree pruning from within the site to enable approved works shall not exceed 10% of any tree canopy, and shall be in accordance with Australian Standard 4373-2007 Pruning of Amenity Trees,
- xi) the tree protection measures specified in this clause must: i) be in place before work commences on the site, and ii) be maintained in good condition during the construction period, and iii) remain in place for the duration of the construction works.

The Certifying Authority must ensure that:

c) The activities listed in section 4.2 of Australian Standard 4970-2009 Protection of Trees on Development Sites, do not occur within the tree protection zone of any tree, and any temporary access to, or location of scaffolding within the tree protection zone of a protected tree, or any other tree to be retained on the site during the construction, is undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of that standard.

Note: All street trees within the road verge and trees within private property are protected under

DA2021/1754 Page 21 of 23

Northern Beaches Council development control plans, except where Council's written consent for removal has been obtained. The felling, lopping, topping, ringbarking, or removal of any tree (s) is prohibited.

Reason: Tree and vegetation protection.

13. Road Reserve

The applicant shall ensure the public footways and roadways adjacent to the site are maintained in a safe condition at all times during the course of the work.

Reason: Public safety.

14. Survey Certificate

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To demonstrate the proposal complies with the approved plans.

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

15. **Stormwater Disposal**

The stormwater drainage works shall be certified as compliant with all relevant Australian Standards and Codes by a suitably qualified person. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of any interim / final Occupation Certificate.

Reason: To ensure appropriate provision for the disposal of stormwater arising from the development.

16. No Weeds Imported On To The Site

No Priority or environmental weeds (as specified in the Northern Beaches Local Weed Management Plan 2019 – 2023) are to be imported on to the site prior to or during construction works.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to issue of any Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority and environmental weeds.

17. Geotechnical Certification Prior to Occupation Certificate

The Applicant is to submit the completed Form 3 of the Geotechnical Risk Management Policy (Appendix 5 of P21 DCP) to the Principal Certifying Authority prior to issue of the Occupation Certificate.

Reason: To ensure geotechnical risk is mitigated appropriately.

18. Installation and certification of solid/fuel burning heater

DA2021/1754 Page 22 of 23

The solid fuel heater must be certified to comply with Australian Standards 4012 and 4013.

Provide the Principal Certifying Authority certification that the solid fuel heater has been installed by an appropriately experienced and qualified person, in accordance with the relevant provisions of AS2918 – Domestic Solid Fuel Burning Appliances – Installation.

Reason: To ensure the installation is completed in a legislatively compliant manner.

ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES

19. Operation of solid fuel burning heaters

The owner/operator must take all practicable measures to prevent the likelihood of causing smoke and/or odour nuisances. Such measures must include:

- Using dry seasoned hardwood
- Storing wood in a dry well-ventilated place
- Having a hot and well oxygenated fire
- Ensuring that the chimney flue is clean
- Checking the chimney at different stages of the fire to see if there is any smoke
- Maintenance according to the manufacturer's specifications

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Thomas Prosser, Planner

The application is determined on 17/12/2021, under the delegated authority of:

Tony Collier, Acting Development Assessment Manager
