RE: DA2020/0552 - 181 Allambie Road ALLAMBIE HEIGHTS NSW 2100

I strongly object to DA 2020/0552 181 ALLAMBIE RD for the reasons outlined below:-

The proposed development will have a direct detrimental impact on the habitats of several endangered species. This will occur in the immediate vicinity with the removal of vegetation and downstream. This is the last known occurrence of an ancient galaxis fish population in the Sydney area.

I have seen first hand the impact of run off from developments in the area around Manly Dam. This is why I object to the proposed development in what is Crown Land and an important vegetation buffer zone. We should be preserving these precious natural assets for future generations as was intended with the Manly Dam memorial and surrounding Crown Lands.
