RE: DA2019/0154 - 1955 Pittwater Road BAYVIEW NSW 2104

Our concerns are certainly not satisfied. It remains an overdevelopment and over excavation of the site.

Enjoyment of our balcony and front and back gardens will be badly impacted by the building's bulk and overlooking windows.

Of further concern is the carport level coming to within 400 mm of our boundary. The excavation may come even closer. How is it to be supported considering this boundary is a stormwater easement?
