RE: DA2020/1039 - 15 Jubilee Avenue WARRIEWOOD NSW 2102

I have read more of the documents associated with this plan and noticed that as the buses exit the driveway and have to turn left heading west on Jubilee Street it appears that they would turn into the traffic heading east on Jubilee (oncoming).

My concern is then that would stop traffic and back up to the roundabout at Jubilee which is often a bottleneck. Please note that the traffic management plan was done on Wednesday 24th June 2020. That was when school was operating for emergency workers only and the workers were very minimal in the area compared to normal.

PLEASE reconsider ... maybe the buses should head West on Jubilee as an option or during certain times of day. I am not against business and understand the need for development. I just dont think this is the ideal position as we have traffic and parking issues already (thank you)
