RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086

I understand that a right hand turn from Russell St will no longer be an option once the Forestway redevelopment has been completed.

The only way to head south will be via Grace Ave, Deakin St, Bentley Ave, Brown St and Keldie St.

Whilst the upgrade to Warringah Rd was in progress it was very noticeable the huge increase of aggressive speeding traffic through the back streets to escape delays on Warringah Rd. Forcing drivers to use these overburdened, narrow backstreets with Frenchs Forest / Montessori schools and private dwellings seems to make a mockery of the newly expanded main roads.

Currently it can take 3 sets of traffic lights, depending on the time of day to make it through the lights at Ferguson St or Brown St to get on to Warringah Rd.

Before the development is allowed to progress a more suitable traffic plan needs to be in place.
Thank you
