RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

The sea wall at Collaroy is a concrete monstrosity, destroying the amenity of the beach. Not only is it a horrendous eyesore, but it is to protect the selfish people in beach front homes with no respect for the environment or the rest of the public. Future storms will remove the sand and there will be no beach left. If we are to have no access to the beach due to the incompetent decisions of the council, they will have hell to pay.
