Dear Carly

Please find attached my letter of objection for the development of 34 & 36 Bardo Road.

Kind regards,
Meg Kennedy

Dear Carly and Northern Beaches Development Committee,

Tuesday 1st December 2020

Referring DA2020/0502

This letter confirms my ongoing objection of the over development in Bardo Road Newport all my points in my previous objection from the original submission and those of Bardo road residents still stand. It is negligent of the council to allow any such development within Bardo Road based on all our previously noted valid points.

Bardo Road is at full capacity as such the road itself could be deemed one way with the amount of on street cars parked, this causes many issues with cars parked over driveways, add to that the weekly bins, it is very dangerous for drivers and pedestrians. Again to allow such a build is negligent.

Bardo Road is a leafy wild life corridor, these people have vandalised existing healthy established trees to facilitate their need for this development, Council should have taken action on this, with many reports of the incidents made.

Bardo Road has a diverse range of families, many attending the local Kindy and school, allowing this development will add more cars to the already over populated street putting children at risk.

Bardo Road already has four Sep 55, a request for this development and that of DA2020/1172 should be denied. How many Sep 55 does this road need?

The requestors of this DA2020/0502 & DA2020/1172 are in this to make money and are no way concerned on the greater environment and emotional impact this will place on the existing residents during and after build completion.

I say **NO** to the over development of Bardo Road, it does not have the infrastructure to cope with developments of this size.

I urge the council to agree with the residents, do not allow this or any future further large developments. We have all chosen to reside in this road as the blocks are large and leafy with an abundance of wildlife. Over development takes this all away. Keep Bardo Road safe from over development, re zone the road to stop these requests and anguish on all the residents.

Kind regards,

Meg Kennedy
