RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

Dear Assessment Officer, (DA 2020/0661) I oppose the application for proposed installation of a Telecommunications tower and base station on the banks of the Curl Curl Lagoon or within the catchment area being such a sensitive site of environmental and cultural significance. There has been much community support and appreciation for the recent rehabilitation and restoration of this area considering the native fauna and flora along with the diversity of the lagoon. Please reject the application.
Yours sincerely, Michelle Burns
