RE: Mod2022/0090 -7356 /1167221 Huston Parade NORTH CURL CURL NSW 2099

Dear Clare,

We have been away and were unfortunately not in a position to lodge our submission before Friday 8th April. Please accept our apologies for this and we respectfully request it to be added and considered.

The Community has overwhelmingly opposed this telecommunication facility supporting Optus Communications infrastructure (390 submissions with 95% opposing).

From the start this infrastructure is in the wrong place. Telco towers do not belong to Parks and fragile riparian environments.

One key aspect of the community opposition was the visual impact of the infrastructure. Therefore it is clear that there is strong community support for Condition 10 (ii) of the Notice of Decision that requires planting around the infrastructure to minimize the visual impact which has always been the reason for this condition of approval.

We strongly oppose the removal of this condition 10 (ii) that actually protects community wishes. Removing this condition would show contempt for the community and we urge Council to ensure that Condition 10 (ii) remains and is enforced. This is the least you can do in the process of this long and tiring saga since 2017 which has showed so much opposition against this project from the community.

Kind regards.

Philippe and Sophie Mady
