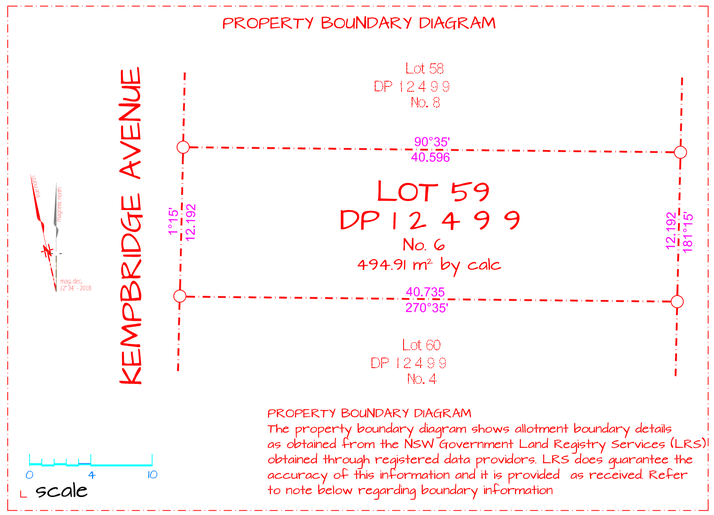
NOTES REGARDING BOUNDARY
The information shown on this plan is for design purposes only. The position of boundary lines is indicative only and these lines, the distances and bearings may not be assumed or implied to represent the definitive position of the actual boundary. The survey is not intended to be classified as a land survey under the NSW Survey and Spatial Information Act 2002 for the purpose of identifying any boundaries or their relation to features and improvements.
The property information displayed is compiled from public records held at NSW Land and Property Information and the property details, the dimensions and the areas are subject to formal definition under the requirements of the NSW Survey and Spatial Information Act 2002.

Notes regarding Utilities
Visible and evident utilities have been measured but this does not preclude the possibility that other utilities may be present. Underground (non-visible) service lines have been shown from "dial Before You Dig" service authority records and are diagrammatic only for position, depth or width and are subject to all "Dial Beofre You Dig" cautionary advice.
Stormwater is located if visible and apparent without further investigation. Underground utilities within the main property have not been invesitgated and the location of utilities noted is general in nature unless otherwise noted.

PROPERTY BOUNDARY DIAGRAM



PROPERTY BOUNDARY DIAGRAM
The property boundary diagram shows allotment boundary details as obtained from the NSW Government Land Registry Services (LRS) obtained through registered data providors. LRS does guarantee the accuracy of this information and it is provided as received. Refer to note below regarding boundary information
