RE: DA2020/1758 - 11 Lewis Street BALGOWLAH HEIGHTS NSW 2093

This is a logical development. Right next door to the existing Public School, this will allow parents to drop early childhood attendees and lower school aged children off at effectively the same point of destination, rather than having to then to proceed to a second destination. This will reduce local traffic, not increase it. It's got my support.
