RE: Mod2016/0298 - 80 Evans Street FRESHWATER NSW 2096

I strongly object to the application for extended hours of work on this site. I live across the road from the development, and my / my families quality of life has disimproved since this development commenced. What was a very peaceful, family friendly location is now a noisy, dusty area with constant lorries and trucks speeding up and down the road, causing havoc. I cannot even open our unit windows during the week as the dust is so bad, that i am afraid it will impact my new born son's lungs. Our balcony and windows are now permanently covered with a thick film of filthy dust, which i believe is a health hazard. We are woken early every morning, well before 7am to the noise of trucks / horns beeping / construction and the proposal of having this torture increased to longer working hours / Saturdays is completely unacceptable. Please consider us residents and our quality of life, which has been severely compromised with this development, and reject this application.
