**RE: DA2023/1224 62 Myoora Road TERREY HILLS NSW 2084**

How are trucks exiting onto Myoora Road going to have enough room to turn if cars are parked on the eastern side of the road. Trucks will have to swing out into the other side of the road before correcting back to the correct side of the road if exiting to the left of their driveway. Very concerning that trucks will be exiting and entering near a public primary school with cars parked in the vicinity and parents crossing Myoora road with children. There is no crossing on Myoora Road. Stunned that planners have not thought of that- wouldn't they know would they as probably not live in area. Very unsafe.
