**Subject:** Re - Tree Removal for sewer repair

Hi Dave,

On the 26th of August we attended your factory at 11 Boola Place Cromer to clear a blocked sewer but were unable to clear the blockage satisfactorily due to damage already present in the sewer pipe from the Boundary Trap to Sydney Water's Sewer Main. We recommended repairing this section which necessitates excavation of ground around in this area which unfortunately includes a tree. This tree is located right next to the Boundary Trap and must be removed to gain access to sewer drainage pipes to replace this section. Because of the depth of the sewer pipe we need to step the sides of the trench to prevent it from collapsing on workers when repairs are performed.
