**RE: DA2020/0552 - 181 Allambie Road ALLAMBIE HEIGHTS NSW 2100**

Please, I would urge you to reconsider approval on the submission for the site at Allambie. We must maintain the Bushland around Manly Dam to be a natural biodiverse environment . So much of our beautiful local area gets lost in overdevelopment, drowned in concrete and pollution runoff which wrecks the water quality in Manly Dam, the last freshwater recreation place in Sydney. It's the reason we love our area so dearly, we lost 9 hectares to the Manly Vale School Development, please no more bush can be lost.
