**RE: DA2019/0123 - 80 - 82 Mona Vale Road MONA VALE NSW 2103**

If this market was allowed it would have a negative effect on a established market .It would see jobs loses in the country of our staff as it would cause sales to fall at the current market ! As farmers we are in drought and need your support of the existing market not competitors , who are not farmers.The fact many of the stall holders are just pop up shop holders and not true farmers is also a issue, I have taken this fact up with minister Nile blare who is very concerned about the establishment of market with non farmers trading at them making out them self to be farmers.The current market supports hands in the dirt farmers like us this one will be nothing more than pop up shop fronts.please support the country farming family in a drought and not let this go ahead
