RE: DA2024/1733 - 5 Roosevelt Avenue ALLAMBIE HEIGHTS NSW 2100

Deeply concerned about the stormwater that will be forced onto my property by way of a spreader. The adjoining property is doing the same thing ! The entire area is on rock so not only will all the surface rainwater will be directly deposited on my property ,the seepage will be almost immediate as well. We do not condone an easement primarily because i do not want a caveate on my title.

Please choose a charged line to roosevelt.

Kind regards pamela Maddrell
