**RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086**

To whom it may concern,  
Whilst we are not against the redevelopment of the Forestway shops, the proposed solution for exit/entry into the shopping centre area and traffic management around the shopping mall requires a better solution.

The current proposal will create increased traffic to an already congested residential area around Grace Avenue through to Altona, Deakin, Bentley and Brown Street. These streets already experience traffic stress, parked out on both sides and used as rat runs through to connecting suburbs.

These residential roads are highly over capacitated and cannot take more - and they should not take more. Please reconsider a better solution for the traffic plan.
