**RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086**

I welcome to new upgrade to the Forestway shops but have some reservations regarding the impact of the proposed traffic conditions on local roads. It appears that the access is compromised and forces more traffic onto local roads (Grace, Altona, Deakin, Bentley). There are a number of schools, family daycares and daycares in the area with many kids and family's walking and riding to and from school and these proposed changes raise further concerns around their safety. I would ask the council to commence their own study to demonstrate that the proposed changes won't have a negative impact on the local community and present their findings to the community.
