RE: DA2019/1234 - 0 Wharves And Jetties MANLY NSW 2095

Our unit faces Manly Wharf and we object in the strongest of terms in connection with the development application.

We already have to put up with the music from the venues on the Wharf, the drunks shouting and screaming from early evening to at least 3.00am in the morning.

When considering this application please take into consideration the residents in the units surrounding this area.
