

Water Management Referral Response

Application Number:	DA2022/0793
---------------------	-------------

Date:	24/05/2022
То:	Thomas Prosser
Land to be developed (Address):	Lot 289 DP 16362 , 12 - 14 Rock Bath Road PALM BEACH NSW 2108
	Lot 290 DP 16362 , 12 - 14 Rock Bath Road PALM BEACH NSW 2108

Reasons for referral

Council's Water Management Officers are required to consider the likely impacts.

Officer comments

This application has been assessed against relevant legislation and policy relating to water quality, waterways, riparian areas, and groundwater. No objections are raised with regard to water quality issues, subject to conditions

Tailwater (surface water, rainwater, minor seepage): Please contact catchment@northernbeaches.nsw.gov.au for advice on Council's water quality requirements for a single instance of dewatering tailwater that collects in an excavation during works. A dewatering permit application must be made for expected multiple instances or continuous dewatering of tailwater.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Water Management Conditions:

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

Installation and Maintenance of Sediment and Erosion Controls

Council proactively regulates construction sites for sediment management.

Sediment and erosion controls must be installed in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004) and the Erosion and Sediment Control Plan prior to commencement of any other works on site.

Erosion and sediment controls are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and vegetation cover has been re-established across 70 percent of the site, and the remaining areas have been stabilised with ongoing measures such as jute mesh or matting.

Reason: Protection of the receiving environment.
